## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Bruce H. Troxell on 10/26/2005.

The application has been amended as follows:

Claim 1, line 17, the word **--terminal--** has been inserted between the words 'source' and 'reflection'.

### ***Allowable Subject Matter***

2. Claims 1, 3-4, and 6-15 are allowed.

The following is an examiner's statement of reasons for allowance: the primary reason for allowance of independent claim 1 is the inclusion of the subject matter of claims 2 and 5. None of the prior art of record discloses or fairly suggests an apparatus for (or a method of) analyzing performance of a multi-stage radio frequency amplifier that includes the power source terminal coefficient of the front stage matching network and load reflection coefficient of the back stage matching network, wherein the power source terminal coefficient is adjusted to be maximum power source terminal reflection coefficient for conjugate matching with an input reflection coefficient of the mid-stage

network, and the load reflection coefficient is also adjusted to be maximum load reflection coefficient for conjugate matching with an output reflection coefficient of mid-stage network. Therefore, claim 1 and its dependent claims are allowed. Independent claim 11 and its dependent claims are also allowed for a similar reason.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
